More about this course

Please check the timetable for the tutor of your chosen course date

Ideal for those who are taking on a new garden but lack the experience to feel confident about how best to look after it and keep it looking its best.

Maybe you would finally like to get to grips with the garden and to feel informed about how to get the best out of it.

A healthy garden starts with quality soil and we will discuss how to get your garden in 'good heart' and keep it that way.

With a little more understanding and background information, gardening will stop feeling like a chore and start to be a wonderful source of exercise and an activity that will connect you to nature's seasonal rhythms in a deeply satisfying way.

If certain areas of gardening have been a problem for you in the past please come armed with questions and we can discuss potential ideas although for detailed personal garden advice we recommend our ten week horticulture course.

There are plenty of inspirational slide shows and informative handouts and we also have lots of information about trade suppliers for plants, bulbs and gardening kit.

Tea, coffee and a delicious lunch are included and all levels of previous experience welcome, including absolute beginners. Come and get to know like-minded people and escape from your busy schedule to our lovely rural location.

Courses will only run with a minimum of three students per course.

We also offer a ten week horticulture course for those wanting to gain a deeper level of understanding and establish a maintenance schedule for their own garden.

This course makes an indulgent, original and informative gift for the novice gardener and we can send you a gift voucher and card to present to the recipient on the day of their special occasion.
