## More about this course

*Tutors vary please enquire*

This is a highly creative course designed to get you confident in finding colour, shape and texture inspiration to underpin your own development of planting and garden design ideas. No previous experience is necessary and you will not need to use a computer, unless you choose to. Please note that working on a computer is not included in the course but you are welcome to use computer skills that you may already have.

This course has not been written for professional training, but by the end you will be able to produce garden designs and planting plans using professional methods.

This course is suitable for those interested in gaining an overview of professional garden design or wanting to learn the process of designing their own gardens.

You will be working on a project site here at Gossington Hall to gain an understanding of the process that can then be applied to any garden. This is a very intensive course covering the broad subject of garden design in only ten weeks. As a result this course requires **at least** one day per week for homework in addition to your time spent at the school to ensure that you get the most out of your time with us - ideally more.

There are plenty of inspirational slide shows and informative handouts. We also have lots of advice about good value suppliers for all things gardening including plants, seeds and bulbs.

Tea, coffee are included and all levels of previous experience are welcome, including absolute beginners. Come and get to know like-minded people and escape from your busy schedule to our lovely rural location. Courses will only run with a minimum of four students per course.

If there are insufficient bookings we will offer a full refund of the deposit or a place on the next available course.

You will graduate with written feedback and a Cotswold Gardening School Ten Week Creative Planning and Planting Diploma Certificate.
